Customers!

The school district has been doing business with All Points Mobile Shredding for eight years now, and to be quite honest, finding this company has been a Godsend to the School District!

From the owner Brian Connelly, to the office manager Dawne, to the driver Rudy, each and every one always courteous and willing to help.

Doing business with All Points Mobile Shredding was the best business decision I ever made for the Martin County School District, and for my own peace of mind.

What To Look For To Avoid Being A Victim of Tax Identity Theft

Several national companies have suffered widely-publicized data breaches, such as Home Depot, Blue Cross-Blue Shield Anthem and Target, to name a few.

Last year, the Ohio Department of Taxation intercepted more than 60,000 suspicious returns that cumulatively claimed over \$250 million worth of invalid refunds.

Most victims are not aware that false returns have been submitted in their names until they send in their legitimate returns and receive rejections.

If you've been affected by a data breach, tax related or otherwise you should take common sense steps to protect yourself. It's essential to monitor your accounts and check your mail, the sooner you detect a problem the easier it is to correct.
