Thanksgiving Facts

All Points Owners are so grateful for the miraculous healing of our 16 year old son Austin. This is what Austin wrote this week:

As many of you know, this past week has been one of the most difficult weeks of my life. On Monday (10/24/22) I took a hit in football that left me unable to move from the neck down. I was quickly trauma-hawked to the hospital where they diagnosed me with a neurological condition that involves long lasting seizures and paralysis. I was told I would be on anti-seizure medicine the rest of my life and that there was a chance I would never be able to move my arms and legs again.

Your prayers truly changed my outcome, my diagnosis, and my future. After a long five days that involved two trauma-hawks to two different ICUs, many tests, tears, prayers, and much more, I walked out of the hospital on my own two feet. With no paralysis, no seizures, and no need for any medicine. I experienced nothing short of a miracle. There's no medical explanation of how I recovered like I did.

The only explanation is Jesus. I am beyond thankful to every single person who prayed for my recovery, the love I felt from every single one of you is indescribable. Normally there is a very long recovery to go through after suffering this kind of injury but to no

- Americans consume more than 45 million turkeys on Thanksgiving
- The average American eats 4,500 calories and 229 fat grams on Thanksgiving
- Americans buy 250 million pounds of potatoes on Thanksgiving
- Americans buy 77 million pounds of ham on Thanksgiving
- Only male turkeys actually makes the "gobble" sound. Female turkeys cackle.

surprise He worked another miracle. God took the plan the devil intended to use to take me out, and he made it into a testimony of His great power. Thank you for all the prayers and support! I share this with you today because if He did it for me, He'll do it for you God bless!

“Nothing strengthens authority such much as silence.”

-Leonardo Da Vinci

Natural Treatments to Stop Inflammation

Many of the most serious diseases are actually a result of chronic inflammation. The most common symptom is pain. Here are 4 natural remedies instead of turning to pain medicine, which can actually cause more problems.

- **Aloe Vera** - Health benefits include treatment of inflammation, arthritic pain, Crohn's disease, colitis and other digestive disorder.
- **Turmeric** - The active ingredient, curcumin, has strong anti-inflammation properties and can be used to improve digestion, promote flexibility, slow and reverse Alzheimer's disease and heart disease.

- **Astaxanthin**- Grown in fresh water, it is one of the strongest anti-inflammatories in nature. It has been proven to ease pain without side effects. Because it's fat soluble, it gets carried by fat right to muscles, tissues and organs.
- **Ginger** - Rich in bioactive compounds proven to reduce pain and help with rheumatoid arthritis or osteoarthritis, this herb reduces inflammation.
